Main paragraphs (Body)- Support your opinion. Start by saying something general. Add an example or an explanation. Use connectors and useful language. Use Gerund (V+ing) ,if you want to relate to a consequence in the future use 1st conditional (if+ present simple, future will+V1 if he studies, he will succeed) , if you want to relate to something that could happen differently now, use 2nd conditional (If+ past simple, future past Would+V1 if he studied, he would succeed).

Examples:

First, staying out late can be dangerous. That is to say, most children don't consider the violent attacks or negative temptations they might face, such as drinking or smoking. Research shows that not going out on school nights prevents exposure to these risks. This is why coming home early or at a reasonable hour keeps them safe and out of potential dangers.

Second, when students are out on school nights, they will perform poorly at school. In other words, school requires its students to do different assignments, participate and ask questions. It is known/surveys show that students who are out at night are not at home studying or resting. Their tiredness and exhaustion will result in lack of concentration and poor grades.

In conclusion _____ ,has many benefits/ drawbacks such as _____ and . _____ This is why I believe _____ It's time _____ / I wish... (V2/ would) /If only...(V2/ would)/ I suggest. _____

Different endings:

In conclusion , **it seems obvious to me** that parents have their children's best interest at heart. They try to protect them as best they can and make sure they will reach their full potential.

Call for action: It is time children trusted their parents and listened to them much more. After all, they are the ones with a lifelong experience. (it's time+subject+V2 : to refer to the present)

A relevant quote or idiom: Looking at my younger siblings, sleeping safely in their beds helps me understand better how preventing children from staying out late makes both my parents and them more peaceful- a picture paints a thousands words.

An insight: All things considered, there is no doubt in my mind that as a parent, I will not permit my kids to stay out during school nights, will you?
